

QP Semi Granted Class V QML Certification

Fabless Military IC Manufacturer expands technical skill set offering with space level manufacturing approval.

SANTA CLARA, CA, November 19, 2004 – QP Semi today announced that it has received Class V Qualified Manufacturer Listing (QML) certification to MIL-PRF-38535. The Defense Supply Center Columbus (DSCC) granted the Class V certification for QP Semi's space level manufacturing flows after successfully completing audits by DSCC, NASA, and The Aerospace Corporation. QP Semi was previously granted full QML Class Q certification in 2003.

John Stannard, President and CEO, commented, "QP Semi has been building product for the space and defense markets for many years. Achieving QML Class V certification reaffirms our ongoing commitment to the highest standards of quality and reliability for all of our customers."

About QP Semiconductor:

QP Semi, a fabless semiconductor company, is a full QML certified manufacturer of integrated circuits for high reliability applications. QP Semi supports customers who are experiencing problems with the acquisition of discontinued, obsolete and end-of-life IC's. Company headquarters are located at 2945 Oakmead Village Court, Santa Clara, CA 95051, USA; Telephone (408) 737-0992, FAX (408) 736-8708. For more information on QP Semi, access our web site at: www.qpsemi.com or contact Jim Townsend at jtownsend@qpsemi.com or 408-737-0992 x177.
